5. Title: Hamm Sr., Gary Dale personal research indicates and points to William Hamm was born in Germany which may not be a viable truth. But he did migrate from England for sure. He married Martha Sherman in about 1755 - 1760. They had five known children. Descendants and relatives lived mainly in South Carolina, Tennessee, Alabama, Arkansas and Texas. It is questionable as to whether or not the William Hamm of 1716 or 1734 by Dan Page notes, 1729 by J. Fisher notes, and 1754 by Gayle Ganthram notes is the same person. All of them indicate the same wife and it may very well be simple error in dates only. It is not factual as to whether or not they were killed by Indians. More research has to be done on Moses Hamm his brother, other census, possible DNA via (Ham Country – Dave Hamm, Revolutionary War inserts by John Ham to clearly determine Williams origin and his parents. - William is said to have gone first to England with his brother Moses. In England, Moses lost his wife, Sarah Elingsworth, considered it a bad omen, and returned to Germany. It is not known whether William married Martha Sherman in England or after he went to America. This family is reported in WFT tree 949, CD 17, and also WFT tree 155, CD 21 History of Pope County, Arkansas, by Pope County Historical Association, Hunter Publishing Company, 1st ed 1979: "RICHARD DICK HAMM - Moses and William Hamm came to America from York County, England in 1752. Here they both married and had children. Moses' wife died, and he later returned to England. William Hamm's children were John (born 1759), Thomas (no birth date)."

According to a letter written by descendant Calvin Hamm, Jr., County Supt., Ramer, Tennessee, written June 27, 1899 at his home in Gravelhill,

Tn., there is a story that has been passed down from generation to generation that two brothers, Moses and William Ham, came from England and settled in America. They married and had children. Moses' wife died and Moses felt he was being cursed for having left the mother country, so he left for England and was not heard from again. Moses is said to have married Sarah Ellensworth and had some children. It is not known who Moses Hamm's children were or where they lived. William Ham is said to have married Martha Sherman or a woman named Elinor. They lived in Cheraw Dist., SC before the Revolutionary War. Legend says they later went to Virginia where they were savagely killed by Cherokee Indians.

The Ham (or Hamm) surname is very ancient, and there were lines existing in Holland, France, Germany, Scotland, and Ireland. The word "ham" is a Celtic placename (which means a place of habitation). There were a number of cities in a number of different countries that bear the "Ham" name, or some variant of the name. There was a Celtic village near a city named Ham in France that dates from 200 BC. There is also a Celtic city in Scotland that is a Caithness name, located near Dunnet on the northernmost tip of Scotland. This small town would date at least from 500 AD. In France, the lines from the city of Ham were of royal blood. So, more very ancient information is available for the city in France than for the other (very early) areas in other countries. So, English, Scottish, German and France folks all spelled the original name the same, even though they were at least three different languages

Mrs. Hamm is survived by three daughters, Mrs. Lawrence Puff of Beaumont, Mrs. Laree Richardson of Silsbee? and Mrs Reba Hawkins of Amarillo.

She is also survived by two sons, Ambrose F. Hamm of Gladewater, Charles H. Hamm of Denver; seventeen grandchildren; brother Oscar Crites of Granbury; and several half brothers and sisters.

The funeral services were held Wednesday, Nov. 22, in the chapel of Martin's Funeral Home with Rev. Benton Sharon officiating. Burial was in the Nubbin Ridge Cemetery under the direction of Martin's Funeral Home.

Dedicated in Memory of Early Nubbin Ridge Settlers

The earliest Recollection of the little community which lies about seven miles south of Granbury was by the name Bald Knob. The name was given because of the small hill on the old Snelson place upon which nothing grew on its uppermost part.

At one time, there was a school-house northeast of the Cemetery. Later one preacher of the Baptist Church called the Church "The Cedar Grove Church" but the people did not accept that name for the community. However, the name was changed after the drought of 1886 and 1887. Those years were so dry the farmers had to go to Johnson County to get corn for their stock. Some people made a few 'nubbins' of corn in 1886. Thereafter, Bald Knob was known as "Nubbin Ridge."

The land for the cemetery was donated by Thomas Burns when a neighbor's (Mr. and Mrs. F. M. Edens) nine-day old baby died, April 21, 1878. About two years later, on July 10, 1880, Thomas Burns died and was the second person to be buried in the cemetery. Both graves are covered with solid rock grave-stones, and the lettering is still legible. Mrs. Burns (lovingly called Granny) died at her home in the Mambrino community was buried beside her husband.

Years ago, a good barbed-wire fence was built around the Cemetery and a few years ago, donations were taken to put a cyclone fence around the south and west sides. Later, Jack Nichols built the good

picnic tables and then the rock entrance-way. The arch above the entrance was built by Mr. L. T. Suitt. These greatly improved the appearance and easy identifyability.

The Cemetery Working-day has long been set on the third Saturday of May. Until a few years ago family members met to clean their own lots and then the remainder of the grounds. A lot people moved away and for other reasons enough people did not come to get the work done. It was decided to start a fund of donations to be used for the cleaning and upkeep of the cemetery.

The Cemetery Working-day is a very good time to meet, reminence, and enjoy good 'country-cooking' with old and new acquaintances.
